

Use of ICT by Faculty for the session 2021-2022

Faculty use ICT enabled tools for effective teaching-learning process.

ICT tools were very essential before the pandemic and after the pandemic. The ICT tools were an effective tool covering the knowledge of the subject with an interactive manner for the students of our institution. The offline classes for the academic year 2021-22 for all subjects had use of ICT tool as a main resource. It was very easy for the teachers to convey the content of their subject to the students by using ICT tools instead of conventional chalk piece and blackboard. Different internet videos and text materials were accessed using the ICT tools and students were made aware of the subject in an easy way with more creativity.

Students were provided recorded videos, ebooks, notes on google classroom to develop easy content to students by efforts of teachers of our institute.

Various curricular activities like webinars, debate competitions, interactive sessions, quiz competitions etc were held using ICT tools. Students were thus active by the hard efforts of the teachers sportively. Fear was removed in the minds of students.

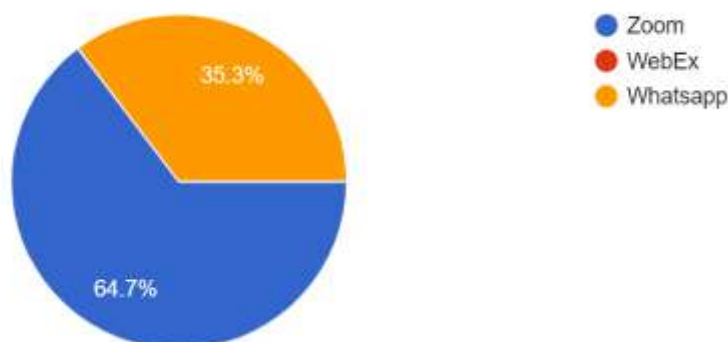

Teachers of Institute used ICT tools for teaching and learning, how hard work was done by them a google survey form was prepared by the committee and data received thus was analysed as follows:

Taking into this consideration all teachers used ICT tools syllabus was completed. It was an added advantage for the students to learn from ICT tools and helped the students for the progress.

Various teachers, how they used ICT tools, a survey was conducted using google forms, by which information was collected.
